# Fifty and Fit

A MAN is as old—or as young—as his organs. At fifty, you can be in your

prime.

Why go along with "fairly good health" when you might be enjoying vigor you haven't felt for years? There's a simple little thing any-

one can do to keep the vital organs stimulated, and feel fit all the time. People don't realize how sluggish they've grown until they've tried it.
The stimulant that will stir your
system to new life is Dr. Caldwell's
syrup pepsin. It will make a most amazing difference in many ways. \* This famous doctor's prescription is a delicious syrup made with fresh herbs, active senna, and pure pep-sin. It starts its good work with the

first spoonful. That's all you need to drive away the dullness and headache of a bilious spell, and rid-the system of that slow poison that saps your strength. It's better than a tonic for tired bowels, and unlike habit-forming laxatives you can take it freely or give it to any child. And it isn't expensive And it isn't expensive.

Get some syrup pepsin today, and take a little tonight. Don't wait until you're sick to give your system this wonderful help. You can avoid those spells of biliousness or constipation. A spoonful every now and then is better than constant worry about the condition of your bowels, or fear of auto-intoxication as you grow older. Dr. Caldwell's syrup pepsin protects the system. All druggists keep this preparation
